

Alex Morgan

Senior Software Engineer

alex.morgan@example.com | +1 (555) 123-4567 | San Francisco, CA | alexmorgan.dev | linkedin.com/in/alexmorgan | github.com/alexmorgan

Summary

Senior software engineer with 8+ years of experience designing and shipping scalable web applications. Proven record of leading cross-functional teams, improving system performance by 40%, and mentoring junior engineers. Passionate about clean architecture, cloud infrastructure, and developer productivity.

Experience

Senior Software Engineer, Nebula Systems - San Francisco, CA 2021-01 - Present

- Led migration of a monolithic Rails app to microservices on Kubernetes, cutting deployment time by 65%
- Designed an event-driven data pipeline processing 2M events/day with Kafka and AWS Lambda
- Mentored 4 junior engineers; introduced code review standards adopted by 3 teams
- Drove TypeScript adoption across the frontend, reducing production bugs by 30%

Software Engineer II, Cloudnine - Seattle, WA 2018-06 - 2020-12

- Built REST APIs powering 500K monthly active users with Python/FastAPI and PostgreSQL
- Improved query performance, cutting p95 latency from 800ms to 220ms
- Implemented CI/CD pipelines with GitHub Actions, enabling daily releases
- Automated cloud cost reporting, saving an estimated \$120K/year

Software Engineer, Pixelworks - Austin, TX 2016-07 - 2018-05

- Developed features for a SaaS analytics platform used by 200+ enterprise customers
- Wrote 150+ unit and integration tests, maintaining 92% coverage
- Refactored a legacy PHP codebase, reducing technical debt by 40%

Education

M.S. in Computer Science - University of Washington 2014-09 - 2016-06

GPA: 3.9/4.0

B.S. in Computer Science - University of Texas at Austin 2010-09 - 2014-05

GPA: 3.7/4.0

Skills

Languages: Python, TypeScript, JavaScript, Go, SQL, Bash

Frameworks: FastAPI, Django, React, Node.js, GraphQL

Cloud & DevOps: AWS, Kubernetes, Docker, Terraform, GitHub Actions

Data: PostgreSQL, Redis, Kafka, Elasticsearch

Projects

openmetrics - github.com/alexmorgan/openmetrics

Open-source metrics dashboard with 1.2K GitHub stars.

- Built pluggable metric collectors with Python asyncio; 30+ contributors
- Shipped real-time dashboards consumed by 5 companies in production

devonboarding - github.com/alexmorgan/devonboarding

Onboarding runbook generator for engineering teams.

- Generated custom checklists from a team's tech stack; used by 12 teams
- Reduced average onboarding time from 3 weeks to 5 days

Certifications

AWS Certified Solutions Architect - Associate - Amazon Web Services - 2022

Professional Scrum Master I - Scrum.org - 2020

Languages

English - Native

German - Professional working proficiency

Spanish - Conversational
